Immunisation protects your child’s health and helps stop the spread of illness to your family, neighbours, friends and the community.

Immunisation is a simple, safe and effective way of protecting children and adults against certain harmful diseases.

It uses the human body’s natural defense mechanism to build resistance to certain diseases.

The risks involved with contracting one of these diseases is far greater than the very small risk of immunisation against the disease.

The City of PAE conducts a number of drop in clinics each month where accredited Registered Nurses provide community immunisations.

No appointments are required and you may attend any session at any venue.

Immunisation services are administered by Health & Immunisation Management Services.

They can be contacted Monday-Friday 9am-5pm on 8152 0363 or email admin@haims.com.au
