

BEACH ACCESS MAT IMAGES

These images may be useful in planning a visit to the beach in Semaphore. Our beach access mats provide a safe path for people using wheelchairs, gophers, prams, walking frames or crutches, and for people with visual impairments. They also help older dogs access the beach. These long, sturdy beach access mats are placed on top of soft sand to support wheeled mobility aids (like wheelchairs or prams) and to make it easier for people who have difficulty walking to reach the firm sand at the water's edge. Unfortunately, we can't guarantee that our beach access mats will reach the hard sand because of constantly changing sand and tides, but the mats are placed in a position where they'll reach hard sand as much as possible.

Please check our website at: [Disability access and inclusion | Port Adelaide Enfield](#) or give us a call to determine if the beach mats are available before you visit.
