PEOPLE MADE

PAE PORT ADELAIDE ENFIELD

Mayor CLAIRE BOAN

Winter greetings to everyone, and welcome to the latest edition of PAE Today. We've got another jam-packed issue for you, with stories covering a range of topics, from our newest and most recently upgraded parks and gardens, to how we're always working towards creating places all people of PAE can love and enjoy, to how to find a sports club in PAE, plus more.

It's hard to believe we're already heading into the second half of the year. The past few months have been wonderfully busy in PAE, culminating just a few weeks ago in New Found Sound, a free live music night in Port Adelaide. Now in its third year, the event showcased a stellar line-up of original new music across 10 venues. It was wonderful to see so many of you out and about on the night enjoying the fabulous music despite the chill in the air! Meanwhile, we've got more events coming your way over the next few months; look out for updates soon about the Winter gathering we're planning for August.

This year, for the second year in a row, PAE was recognised in Snap Send Solve's Solver of the Year awards, winning both the Snappers' Choice Award and the Top Solvers Award. While I'd like to thank our staff, who proudly deliver the highest standards of customer service and ensure we keep the community safe, clean and well-maintained, I'd also like to thank you, the community, for taking the time to vote and for placing your trust and confidence in the services we provide as a council.

Looking for something to do indoors during the colder months? Why not visit PAE Libraries? There are books to read, games to play and activities to participate in. And don't forget the Makerspace at the Parks Library in Angle Park, where you can get hands-on, either alone or with others, and create, collaborate or innovate.

There's plenty more to read in the following pages, but in the meantime, I wish you a happy and fulfilling season, and I hope to see you around the city one day soon.

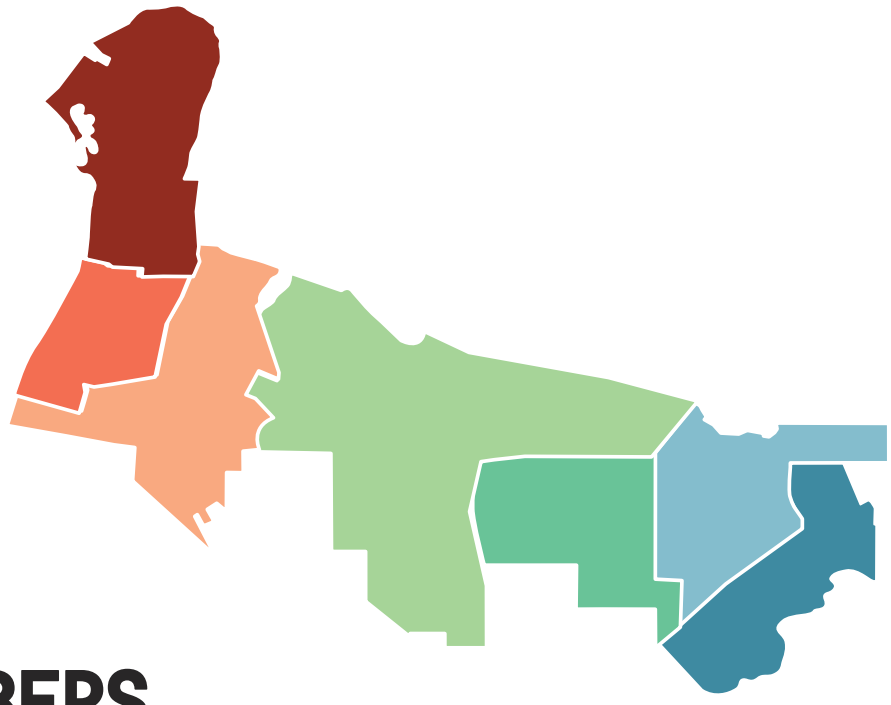

ACKNOWLEDGMENT OF COUNTRY

The City of PAE acknowledges and pays respect to the traditional custodians of the land on which we stand, the Kaurna people of the Adelaide Plains and pays respect to Elders past, present and emerging. We recognise and respect their cultural heritage, beliefs and relationships with the land. We acknowledge that they are of continuing importance to the Kaurna people living today.

PAE Today is an official publication of the City of PAE. It's delivered in PAE to most residential properties via letterbox distributors and to businesses by Australia Post. Copies of each edition are also available from our libraries and community centres, and online at cityofpae.sa.gov.au/connect/pae-today. Please contact us if you require assistance to access a copy. Suggestions for articles can be submitted to communications@cityofpae.sa.gov.au

Disclaimer: While every effort is made to report community information fairly and accurately, the City of PAE accepts no responsibility for any errors or omissions which may occur. The views of the contributors are not necessarily shared by the City of PAE.

WINTER WONDERS

It's winter and the grass is green – the perfect time of the year to get out and about in the beautiful parks and gardens of PAE.

WELCOME TO THE PORT

If you haven't visited the Port Adelaide riverfront recently, why not take advantage of the cooler weather to go for a wander by the wharf? The heritage maritime precinct has plenty to offer, from river views to museums and cafés – and now there's the McLaren Plaza near Dock One as well. The plaza includes a grassy area, plenty of sheltered seating, a nature play area and a small, pleasant open space where people can relax, rest, stroll and gather.

This project dovetails with the State Government's plan, now nearing completion, to build a footbridge for pedestrians and cyclists that crosses the Port River near the new Port Dock Train Station, connecting one side of Dock One to the other. Planned to be the primary welcoming point for people entering the Port via the bridge, the park already serves as an attractive and convenient meeting point for local residents, workers and visitors. A green oasis in a formerly industrial context, it's a small but important part of PAE's plan to increase our tree canopy cover. It's also another way that we're working to build a clean and green city – made by and for people.

HURRAH FOR HOCKEY

The winter hockey season is in full swing, and members of the Port Adelaide District Hockey Club, located in John Hart Reserve in Ethelton, are enjoying a newly renovated sports field. In addition to installing a new artificial grass pitch and fully rebuilding the shock pad rubber underlay, we've installed new backstop goal posts, netting and posts, as well as a new perimeter footpath, retaining wall and fencing to keep players and spectators safe. So now, the club, one of the most successful hockey clubs in SA with a past that stretches back to 1934, is set to compete for years to come!

FIND A SPORTS CLUB

Want to get fit and try a new sport? Looking to meet new people? Playing sport doesn't just improve your health – it helps build strong communities and gives people a sense of belonging. And with more than 150 sport and recreation clubs offering over 30 different activities across our city, there's something for everyone in PAE. There's a huge variety, from AFL to American football, basketball to gymnastics, netball to rugby – and more. Check the Activities Register on our website for a comprehensive directory of all the sports clubs in PAE, and get sporty!

Find a Sport

THE GRASS IS GREENER

At PAE, we cut the verges on our streets a minimum of six times a year to keep our city green and safe for pedestrians and drivers. To complement this service, which includes cutting the grass outside your house and then sweeping the street to reduce grass cuttings from entering our stormwater drainage network, we also spray weeds three times a year.

Wondering when we're next cutting the verge in your suburb? You can now view the verge cutting schedule on our website. Simply check the list of suburbs – if we're planning to work in your area within the next two or three weeks, you'll see the word 'Upcoming' beside your suburb.

The grass cutting schedule may change sometimes due to weather, construction and other factors. In addition, there are a few areas where, due to contractual arrangements, we're unable to provide the service. This includes Oakden Rise, where the verges are maintained by Villawood, and Oakden, Northgate and North Haven, where residents need to maintain their own verges.

Verge Services

DID YOU KNOW?

Did you know that verges may also include above or below ground infrastructure that provides access to water, gas, electricity and telecommunication services? So don't forget – if you'd like to landscape the verge in front of your home, you'll need to check our verge development guidelines and submit a (free) application first.

PLAYGROUND CHAT

Approximately 1.2 million Australians experience communication issues, including people with autism and people from culturally and linguistically diverse backgrounds. In PAE, we're making it easier for them to be included by installing communication boards in playgrounds across the city.

A communication board is a large board on which predictable words are placed beside well-recognised symbols to support people with a communication disability to express their thoughts, needs, wants and ideas. The board acts as a menu that a person whose speech is difficult to understand or who doesn't use verbal speech can gesture at to express what they want to say. Take local resident Olivia, for example, who was enjoying a recent speech therapy session at Largs Foreshore playground when she spotted the words 'food and drink' on the communication board and was able to use this to tell her companions that she was hungry and needed a break.

Crucially, each board reflects the unique features of the equipment of the playground it's installed in, whether that's Polonia Reserve's soccer ball sculpture or the ice cream-themed playground at Largs Bay. With 14 boards installed since we began the rollout three years ago, we're aiming to install between three to 10 each year, with the ultimate plan being to include a communication board in every playground in PAE – making our playgrounds welcoming to the whole community.

REMOVING BARRIERS

We're committed to making PAE more accessible and inclusive for everyone by removing barriers and making our services, spaces, programs and opportunities available to people on an equal basis. Whether it's installing accessible toilets and accredited Changing Places, providing wheelchair-accessible beaches and playgrounds, running Active Storytime sessions for children who are neurodiverse or making accessible technologies, books and resources available through our libraries, we're doing our bit to make it easier for people with disability to enjoy our city. To see what else we're planning, check out our Inclusive Communities Plan 2026–30 and our Public Toilet Plan 2025–30, both of which were recently discussed by Council.

Creating a city that's welcoming and liveable for everyone now and into the future • Improving our libraries and community facilities • Removing barriers • Providing safe toilets • Find out more about how we plan to shape PAE over the next 10 years at **cityofpae.sa.gov.au/council/plans-reports**

Plans and Reports

IN MAY THIS YEAR WE CELEBRATED NATIONAL VOLUNTEER WEEK. THERE ARE NOW MORE THAN 300 PEOPLE VOLUNTEERING FOR PAE WHO CONTRIBUTED OVER 27,000 HOURS IN 2025.

Thanks to every one of these amazing people who make a big difference to our city.

CRAFT & CHAT PROGRAM

Peek into the Port Adelaide Library Community Room on Tuesday mornings during term-time and you'll encounter a small group of people chatting and doing art and craft together. It's the Craft and Chat Program, run by local textile artist and volunteer Rehana Usman, Weekly Workshop award winner at the Adelaide Fringe Festival in 2025 and owner of Studio Rags. The program, which is free and welcomes people of all ages, backgrounds and abilities, offers participants the chance to try their hand at painting, drawing, collage, air dry clay, stitching, appliqué, crochet and more. But it also offers so much more, with regular participants forming firm friendships, offering support to each other during difficult times and reaching out to sick members. 'No-one is judgemental,' says regular attendee Vicki, 'and we all help each other.'

With materials and guidance provided, the program has grown so popular that PAE Libraries hope to expand it to other libraries in the future. 'It's our happy space,' Rehana says. 'Sometimes we just bring something to eat and throw a little tea party. People share stories from their life, and we crack jokes and laugh like crazy with doors closed.'

Details: Tuesdays, Port Adelaide Library, 10am – 12pm during term time. Free walk-in sessions, all materials provided.

Highest three volunteer programs by hour:

LIFE IS THE REASON

For over 90 years, Lifeblood has been saving the lives of Australians through blood donations. The not-for-profit organisation, formerly known as the Australian Red Cross Blood Service, also collects donations of plasma, breast milk, blood stem cells, body organs and tissues, and microbiota, all in the name of saving people's lives. To keep doing this, they need donors – like local legend Guy Schultz, who has been donating blood since he was 19. In fact, having made 130 donations over the last 11 years, Guy's so enthused about the importance of donating that he asked family and friends to donate with him for his 30th birthday earlier this year.

'It was the best present I could receive,' Guy says. 'I couldn't have been prouder of my loved ones for wanting to help people they will never meet just because it was the right thing to do.'

Thinking about donating? Simply check your eligibility online through Lifeblood, then find a donor centre and book a time that works for you. The donation itself is hardly more complicated than sitting in a donor chair for around an hour while your sample is collected.

The demand for Australia's blood supply level varies. Check out Lifeblood's daily update to see what donations are most needed currently.

lifeblood.com.au/donors/blood-plasma-platelets/blood-supply-levels

IMMUNISATION CLINICS AT PAE

Need a vaccine but can't book an appointment at your GP? Each month, we hold four public drop-in immunisation clinics at three different locations across PAE – the Town Hall in Port Adelaide, Enfield Community Centre and the Lights Community and Sports Centre in Lightsview. While you can receive some vaccines for free, including child and adolescent scheduled vaccines, there's a small fee for other vaccines. The flu vaccine is also available, either for free to Medicare card holders who meet certain eligibility requirements, or for $20. For more information, see our website or contact Health and Immunisation Management Services on **8152 0363.**

Immunisation

RESTORING OUR HERITAGE

We're giving the Visitor Information Centre (VIC) in Port Adelaide a facelift. Originally built in 1860, it's one of the oldest buildings in the Port, and this is a major heritage restoration project. In the meantime, the VIC has temporarily relocated to 171 St Vincent Street, where the same services are still available, including free bike hire and access to guided Port Walks. You can also download the Visit Port Adelaide app, which features several tours, along with information about what to see and do in the Port. Construction on the VIC is due to finish towards the end of the year – we look forward to welcoming you back then to this beautiful local icon.

Visitor Information Centre

CITIZENS OF THE YEAR

Each year we recognise the outstanding contributions of people within the community at our Australia Day Awards ceremony. But what does winning an award mean, and how does it change your life? We chatted with last year's joint Citizen of the Year Award winners, David Durant (long-term contributor to South Australian basketball), and Peter Christopher OAM (founding member of the campaign to save the City of Adelaide Clipper Ship), to find out more.

What drives you to contribute?

DAVID: Basketball helps shape children's life skills, from learning to work with players and take direction from coaches, to understanding how to work within the confines of rules.

PETER: Tens of thousands of visitors from around the world have come to see the Clipper Ship since its arrival in Port Adelaide in 2014. It's a great social history project.

How has winning the award in 2025 changed things for you?

DAVID: I get ribbed more! Some nice people have said that it's a reward for effort, but most of the journey has been a joy.

PETER: It's increased the profile of the project.

What advice would you give to others wanting to contribute to the community?

DAVID: There is a lot of joy to be had in volunteering, be it for a cause, children or others. For retirees, volunteering can keep them busy and helps the community in which we live.

PETER: Never give up just because somebody says it's not possible.

DID YOU KNOW?

In this series, we provide tips and ideas about things people commonly contact us about.

TRICKY WASTE

Did you know there are some items of waste that you can't dispose of in your wheelie bins at home? These items, which include batteries, building materials, clothing, shoes, gas bottles (including smaller gas canisters), paints and oil, are known as tricky waste because you need to dispose of them differently from general, recyclable and organic waste.

The good news is, you can drop off lots of these items – many for free and others with minor charges – at the Beverley Recycling and Waste Centre, at 2 – 4 Toogood Avenue, Beverley. For example, you can drop off up to 15 items of eWaste – like TVs, kettles, computers, printers, hairdryers and other similar items that need a plug or battery to work – per day. Yes, that even includes a fridge!

Other items you can drop off for free include cardboard, steel, aluminium, bottles and cans, plus household and lithium-ion batteries. You can even bring in up to 30L of oil and coolant or 100L of paint. (Helpful tip: the amount of paint you can drop off will be determined by the volume of the cans, not the paint.)

Waste Services

BATTERY ALERT!

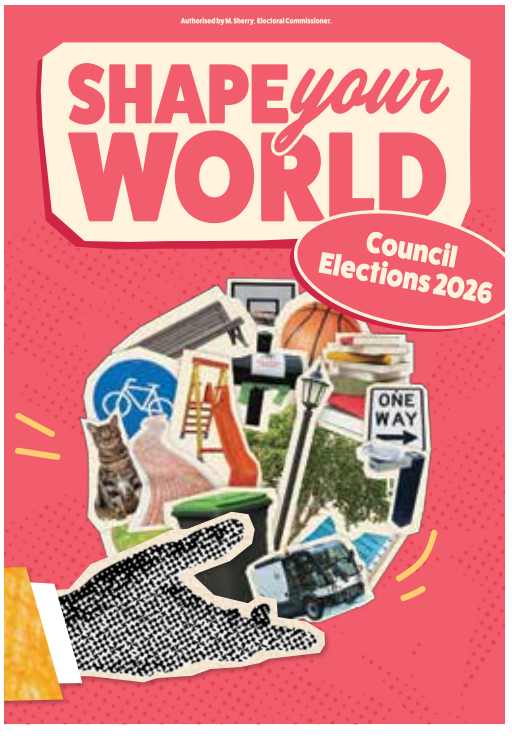

Never throw used batteries into your wheelie bins! Batteries in bins cause fires and put the lives of waste and recycling workers at risk. And that's not just loose batteries – many household appliances that plug in or recharge contain an internal embedded battery:

- Loose batteries can be recycled using drop-off services at most supermarkets and hardware shops – visit bcycle.com.au to find a location close to you. Alternatively, bring them to any library or council office in PAE during opening hours and place them in the battery recycling tubes
- Household appliances containing embedded batteries can also be recycled for free at various locations – see greenindustries.sa.gov.au/batteries

REUSE AND RECYCLE HUBS

Old x-rays, CDs and DVDs, reading glasses, ink cartridges, small eWaste and mobile phones cluttering up your drawers? Head to Port Adelaide or Enfield Library and drop them into our Reuse and Recycle Hubs.

LOCAL GOVERNMENT ELECTIONS 2026

With the 2026 state election now complete, it's time to start preparing for the local government elections this November. While voting isn't compulsory, it's an important opportunity to have your say on the decisions that affect your local community. Make sure you're enrolled for the 2026 local government elections by 31 July so you don't miss out. If you're a business owner or property owner, please contact us to check your eligibility and find out more. Nominations for Council positions will open on 25 August and close at 12 noon on 8 September. Serving on Council is a rewarding and challenging role that involves commitment, responsibility and accountability, and offers a chance to help shape the future direction of our city and deliver positive outcomes for the community.

PAE'S SNAPPY SERVICE

Seen something that needs fixing in PAE? Snap Send Solve is a free, handy app that lets community members report issues that need addressing, from potholes to dumped rubbish. This year, PAE has been recognised as the best council in SA for responding to Snap Send Solve issues, winning the Snappers' Choice Award (decided by public vote) and the #1 Top Solver Award in SA (based on community satisfaction). PAE was also ranked as the top SA council and the second council nationally last year. Big thanks to the staff who respond to these reports – and to everyone in the community who reports these issues to us so we can work to keep PAE safe, clean and well-maintained.

A NEW CHAPTER FOR PAE TODAY

You may notice some changes ahead in how we share our news. This edition marks the conclusion of the publication in its current format, as we move towards a more environmentally sustainable way of keeping our community informed, with information that is also more timely and current. Importantly, we will continue to share the stories, updates and local information you value. Accessibility remains a priority, with news available through digital channels as well as hard-copy options for those who need them. You'll hear more about this soon. In the meantime, you can sign up to our monthly eNewsletter, stay connected via social media or visit our website for the latest news and updates.

MATTRESS COLLECTIONS

Getting rid of a mattress?

- Reduce landfill and avoid the need to book a hard waste collection by booking a mattress-only kerbside collection instead
- Up to three mattresses per collection
- Maximum of two collections per year
- Only available to residential properties

Hard Waste
